When you choose an FIE London program, you’ll embark on an unforgettable journey to the world’s most culturally diverse and dynamic city. As a leading global center for arts, commerce education, and entertainment, London offers endless potential for study abroad! Choose from a fall, spring, or summer Study or Study & Internship program. FIE London offers academic courses in a variety of disciplines designed to suit almost any major. London becomes your classroom with co-curricular activities at local theatres, museums, and historical venues. Our internships provide students the opportunity to build intercultural skills while working with a small-to-medium sized organization in London. Coupled with academic coursework, the programs are designed to help students make the most of their resume-boosting experience. This program is sponsored by College of Staten Island, CUNY and AASCU.
